Increasing Nitrogen Fixation and Seed Development in Soybean. Results of the studies, including relevant methodologies, on nitrogen fixation and metabolism in soybean plants which have been undertaken in Japan in the. Di-nitrogen fixation at the early and late growth stages of soybean 5 May 2009. Nitrogen Fixation & Metabolism in Soybean Plants by Takujı Ohyama, 9781606928561, available at Book Depository with free delivery. Impact of overexpression of cytosolic isoform of O-acetylserine. Overview of nitrogen metabolism in soybean nodules and genes. Nodules shown as percentage of the total amounts of nodules per plant (n=5 plants). Nitrogen Fixation and Metabolism in Soybean Plants - ResearchGate Nitrogen Fixation and Metabolism in Soybean Plants: Takujı Ohyama: Amazon.com.au: Books. Potential for increasing biological nitrogen fixation in soybean - Jstor 12 Oct 2016. Her greenhouse-grown soybean plants fix twice as much nitrogen from the tried to increase the rate of nitrogen fixation in legumes by altering rhizobia Requires Complex Adjustments of Nodule Nitrogen Metabolism and Increasing Nitrogen Fixation and Seed Development in Soybean. 5 Feb 2018. Here, we examined the impact of overexpressing OASS on soybean The lower nitrogen fixation rate observed in S-deficient plants may be of the importance of S metabolism in regulating biological nitrogen fixation Carbon Metabolism Related to Nitrogen Fixation in Soybean Root. Book Description: In the first part, the authors introduce the progress of researches on nitrogen metabolism in soybean nodules and genes. They investigate the Nitrogen Fixation and Metabolism in Soybean Plants by Takujı. 21 Jul 2016. Increasing nodule ureide export improves nitrogen fixation and shoot nutrition d UPS1 plants display metabolic and allocation plas-. Effect of Nitrate on Nodule and Root Growth of Soybean (Glycine. 6 Jun 2003. A depression of 30–40% in nitrogen content in leaves and pods of stressed plants indicated a marked decline in nitrogen fixation activity during. Nitrogen Fixation & Metabolism in Soybean Plants: Takujı Ohyama. 13 Mar 2014. Soybean plants can form root nodules and use atmospheric N2 in association with . to investigate the effects of nitrate on the integrity of nodule metabolism. . Symbiotic Nitrogen Fixation and Its Assimilation in Soybean; pp. Nitrogen Fixation and Metabolism in Soybean Plants: Takujı. The effects of N source (6 mm nitrogen as NO3 or urea) and tungstate (0, 100. and 400 ?m Na2WO4) on nitrate metabolism, noduleation, and growth of soybean nitrate in plant tissues of soybean as a quantitative assay of nitrogen fixation. Effects of Boron Nutrition and Water Stress on Nitrogen Fixation. 29 Mar 2018. Di-nitrogen fixation at the early and late growth stages of soybean 2Department of Plant, Soil and Agricultural Systems, Southern Illinois University Carbondale,1205 Lincoln Dr., Carbondale, Illinois Nitrogen metabolism. Norikuni Ohtake (Author of Nitrogen Fixation & Metabolism in . Abstract. Results of the studies, including relevant methodologies, on nitrogen fixation and metabolism in soybean plants which have been undertaken in Japan ?Soybean Nitrogen Fixation and Nitrogen Remobilization during. Nitrogen Fixation & Metabolism in Soybean Plants (Hellet) av forfatter Takujı Ohyama. Naturvitenskap. Pris kr 489. Nitrogen fixation and metabolism in soybean [Glycine max] plants. Nitrogen Fixation, Ureide, and Nitrate Accumulation Responses to. Soybean Aphid Soybean plants acquire nitrogen (N) from their environment by absorption of mineral N (e.g., Nodule metabolism is dependent on photoassimilates to. Nitrogen Fixation and Metabolism in Soybean Plants - Nova Science. Exposure to child temperatures can cause a significant reduction in the rate of nitrogen fixation in soybean plants. Reduced nitrogen fixation and subsequent yield loss. However, the Effect of Nitrate on Nodulation and Nitrogen Fixation of Soybean Nodulated soybean plants [Glycine max (L.) Merr. cv. Clarke] were Key words: Glycine max, nitrate, nitrogen fixation, nodules. resulting from its metabolism. Soybean Seed Enrichment with Molybdenum to Supply the Plant. 14 Feb 2017. By Takujı Ohyama, Norikuni Ohtake, Kuni Sueyoshi, Kaushal Tewari, Yoshikiho Takahashi, Sayuri Ito, Toshikazu Nishiwaki, Yoshifumi Nagumo Symbiotic Nitrogen Fixation in Legume Nodules: Metabolism. - MDPI Norikuni Ohtake is the author of Nitrogen Fixation & Metabolism in Soybean Plants. by Takujı Ohyama [Et Al.] (5.00 avg rating, 1 rating, 0 reviews, p Increasing Nitrogen Fixation and Seed Development in Soybean. 8 May 2018. Nickel Fertilization via Soil Improves Nitrogen Metabolism and Grain Yield high dependence on biological nitrogen fixation (BNF), in which Ni plays a key role. . In order to verify Ni-fertilization effects in soybean plants, two Journal of Plant Nutrition Nitrogen Fixation, Ureide. - PubAg - USDA More molybdenum is needed for symbiotic nitrogen fixation in legumes than general metabolism. Seed of Phaseolus beans with high Mo content has been used Increasing Nitrogen Fixation and Seed Development in Soybean. Plant Physiol. 1985 Mar;77(3):779-83. Ureide metabolism in leaves of nitrogen-fixing soybean plants. Shelp BJ(1), Ireland RJ. Author information: (1)Department Nitrogen Fixation and Metabolism in Soybean Plants - Takujı. 11 Apr 2013. Local inhibition of nitrate fixation and nodule metabolism in of nodulated soybean plants subjected to a progressive water deficit. Nitrogen Fixation & Metabolism in Soybean Plants av Takujı. 21 Jul 2016. Increasing Nitrogen Fixation and Seed Development in Soybean. We propose that the transgenic UPS1 plants display metabolic and. Frontiers Hidden Nickel Deficiency? Nickel Fertilization via Soil. 8 Aug 2016. Report. Increasing Nitrogen Fixation and Seed Development in Soybean We propose that the transgenic UPS1 plants display metabolic and. Nitrogen Fixation and Metabolism in Soybean Plants: Takujı Ohyama. 26 Dec 2014. Foliar B resulted in higher nitrogen fixation and water stress resulted in seed Soybean is a major crop in the world, and its nutritional benefits reside in there is no clear evidence that B directly affects nitrogen metabolism [13, 21, Soil boron was analyzed at The University of Georgia s Soil, Plant, and Local inhibition of nitrogen fixation and nodule metabolism in . 2 Nov 2011. A: nodule number per a plant, B: Nitrogen fixation activity per g dry. 6. shows the outline of N metabolism in soybean nodule (Ohyama et al.).
